2011 - National Senior Certificate, Hoërskool Jeugland (2007 - 2011)

Profile

I am a rational and technical inclined person. I strive to deliver excellent work by using my expertise and experience accumulated consistently and with a clear objective. I work with high speed and precision and take pride in keeping my work professional.

I completed Matric in 2011 and started in the construction industry thereafter where I have gained initial practical experience working as a site supervisor & foremen on multiple sites.

I started my Architectural studies in 2013 and joined an Architectural firm in 2014. I have been working in architecture since 2014 while completing my studies and is still current.

I effectively and diligently coordinate and delegate multiple projects simultaneously. I believe that I will be an asset to the firm and will contribute to a growing team of professionals.

I have been involved in a wide variety of projects including high end residential housing, estate development, mixed use buildings, offices, frail care units, large scale housing, hotel and retail, high rise buildings and storage facilities.
